

Dear Martin and Michelle,

Just a quick note in with your card, to let you know how Poppy has got on since her wonderful ski trip....

Since receiving the DVD of the holiday it has hardly been off our TV.....Poppy absolutely loves it and will sit for hours watching it, bringing back memories, and LAUGHING!!! My God does she laugh. Her favourite bit is Brian as the Worlds Smallest Man. We sent a letter to Ian, but thank you too for having the great sense to video the holiday. It means the world to Poppy (and us) as her memory is so poor I am sure she would not have remembered a lot of things, and this DVD means she can re-live the holiday forever! About the first five/six times she watched it she was in tears remembering all the lovely friends she has made. She writes to quite a few, and Andy, bless him, keeps in touch.

I must say, I cried buckets when I saw how the children had said their own thank-yous... that was incredibly touching. Through watching the DVD I feel like I have got to know the children myself which is great. Ian has done such a super-duper job.

I know you must be busy planning the final stages of the next holiday, so best of luck. I often think of all of you volunteers who give up so much time for these wonderful special children, and I know I've said thanks before, but it goes on and on our gratitude. It really was a holiday of a life time for Poppy, we would never be able to take her skiing and we are so happy she got this opportunity.

With much love and a very Happy Christmas,

Becky, Mark, Poppy & family
